Main menu  
(bars fill up based on practice,  
color changes based on accuracy)

u  
[y]

To pronounce **u**, your tongue  
should be placed:

- **High**, touching the roof of your mouth
- **Forwards**, touching your lower teeth

Your lips should also be **rounded**.

This is, in fact, the same vowel as **i**  
(same tongue position), but rounded.

[Some mouth drawing  
with the correct  
tongue/lips position]

Let me try!

Practice session

In order of difficulty (both for the user and for us to implement):

- Vowels
- Consonants
- Syllables
- Words/sentences

Additional ideas that can be included:

- Tailored advice based on the person's mothertongue
- Using examples of French words containing said phoneme

Other expansions:

- Adding more languages than French

u  
[y]

Tongue position:

- **High**, touching the roof of your mouth
- **Forwards**, touching your lower teeth

Lips: **rounded**.

[Some mouth drawing with  
the current vs. expected  
tongue position]

Move your tongue **higher**.

u  
[y]

Tongue position:

- **High**, touching the roof of your mouth
- **Forwards**, touching your lower teeth

Lips: **rounded**.

[Some mouth drawing with  
the current vs. expected  
tongue position]

Almost there! **Round** your lips.

u  
[y]

Tongue position:

- **High**, touching the roof of your mouth
- **Forwards**, touching your lower teeth

Lips: **rounded**.

[Some mouth drawing with  
the current vs. expected  
tongue position]

You got it! 🍌
